

INSTRUCTIONAL VIDEO SERIES

Colonial Crown, LLC
Presents

Eric A. Myall Saddler & Harness Maker in the 21st Century

An instructional video series on the application of saddler and harness making techniques in the making of period correct (18th & 19th Century) leather accoutrements.

Learn at the bench of a shop master, proficient with the tools and techniques of 18th Century England.

Eric Myall apprenticed in England when he was 15 years old. With 55 years experience in the trade, Eric takes you from the fundamentals to the more advanced techniques of the saddler and harness maker as he fabricates various accoutrements. Through meticulous demonstration, close-up photography, and the questioning of his apprentice, Richard Azzaro, the viewer sees the various techniques and how someone who has made his living in the trade executes them. Topics include leather selection, measuring, cutting, edging, skiving, selection and preparation of thread, sewing techniques, and the proper use of tools such as the clams, round knife, pricking iron, various punches, and much more!

Part I: Making a belt \$26.99

Part II: Making a Bullet Pouch \$26.99
